Education

B.E. In Information Technology, Universal College of Engineering
University of Mumbai,

2024
CGPA:7.44/10

Experience

Customer Service Associate (Voice) at Teleperformance

Feb 2025 – July 2025

- Managed 40-60 customer queries daily using Salesforce CRM, ensuring accurate and effective problem resolution.
- Maintained 90%+ customer satisfaction by consistently meeting response time target and providing high-quality information.
- Developed strong communication, problem-solving, and conflict resolution skills in a fast-paced environment.
- Worked with cross-functional teams to resolve issues efficiently and reduce turnaround time.

Project

The Golden Table (Restaurant Booking System)

GitHub: [Source Code](#)

- Developed a restaurant table booking system enabling customers to book tables online and receive booking confirmation with a unique ID for easy check-in.
- Implemented a secure check-in verification process where staff verify booking using a one-time password (OTP), ensuring the check-in process is smoother and preventing misuse of reservations.
- Built a web application using React, Django, and Django REST Framework, integrating JWT authentication, backend-driven booking validation and secure OTP verification logic.

E-Commerce Web App (React)

GitHub: [Source Code](#)

- Developed an e-commerce web application to manage product browsing, filtering, and cart functionality.
- Built reusable components and used efficient state management to organize data flow.
- Delivered a user-friendly and responsive application and easier to maintain and scale.

Skills
